Subject: Supplementary note to the report on Kingsmead Field

Further to the Overview Committee meeting held on 25 June 2014 there are two points from the original report which should be clarified.

1. The Recommendations listed on the first page of the report were intended for Overview Committee in order for them to recommend to the Executive. These should have been converted to Resolutions for the Executive report. The Executive has the authority to make these resolutions.

2. Section 12 – there was an oversight by officers and two options were omitted from the original report. The options available to the Executive are:

   a) Market the area of Kingsmead Field not designated as Protected Open Space as a residential development opportunity.
   b) Leave the area of the field not designated as Protected Open Space as it is.
   c) Request a further report to allow consideration of applying voluntary Village Green designation to the whole Kingsmead Field site.
   d) Request a further report to allow consideration of applying voluntary Village Green designation to the area included in the Village Green application to KCC, and market the remaining area as a residential development opportunity.

Appendix 1 – Kingsmead Field
Village Green area

The larger area to the left bordering on Kingsmead Road is the area covered by the Village Green application. The remaining section bordering the Kingsbrook Park development is not included by the Village Green application.
